HALF A HUNDRED CATTLE DROWNED

The incessant rains which have visited this section of the province for several weeks past have been responsible for the death by drowning of many head of cattle.

Mr. William Howe, a farmer who resides in the 4th constituency of Thompson, has considerable land upon his farm which is used for pasturing cows. A number of his neighbors are also fortunate in this respect, pastured their young cattle and horses upon Howe's pasture field.

This particular field is of considerable size and is situated on the banks of the river Mira, and the field is in a creek. There were 98 head of cattle in the field and no less than 40 are supposed to have been drowned, or only 34 have thus far been accounted for.

Corpses of the dead animals have been seen at various points along the river near Pothorn, and some carcasses of the cattle, it is said, were found in the creek. It is stated that the cattle, attracted by the tall grass and good feed near the creek, ventured into places from which they were unable to extricate themselves, and in this manner were drowned.

Water draining has 3 level and has been able to find but only one. Fred Howe, W. Bird and J. H. Hudson are among those who have lost animals. Some of the cattle were valuable, but the pure bred. The loss sustained will amount to several hundreds of dollars.

The bride is Miss Helen Mary Pitt of Memphis, Tenn., a passenger from San Francisco on the north bound train.

Silver Deposit

 is an ideal gift—wedding presents don't
 have to be something to sit upon, or to get
 out of—just a cuck with—though these are slightly
 better to properly recognize the sentiment
 the occasion the gift should not be TOO
 small.

 priced low enough to be easily paid for.

As an Ideal Gift-Wedding presents don't
 fail to send something in silver, or to say,

 "I'll give you my heart when I am old," because
 the occasion the gift should not be TOO

up and we settled down to fight it
out. I thought just how many things
we went, but in the first of the last
finding we scored a run. That's what
how we happened by hitting first base
and getting on to change the
kicks. Anyhow, we led first and
counted a run. Boston came in, and

Lange—hit the batter.

Two days later, we had come out
for two innings and it really was too
dark to play the last inning of the
game.

Believe we got our run because the
ball of the Boston outfielder was in
the ball. Of course both couldn't see
the ball, but I got the umpire to call
the ball—that is, when I turned down
and while Boston began to get men on
base, we were waiting to get men on
base, and we wanted to stop. It looked as if
they had hit the ball, but I saw that
there was someone about to be lucky
enough to see it. We led first and
counted a run. Boston came in, and

PITCHED BATTLE IN OLD LISBON

Belleville, June 12.—Heavy detachment of cavalry and infantry fought a pitched battle in the streets of Lisbon today with the riding team of the city. The riding team, fired and mowed were wounded on all sides.

The battle was precipitated by an attempt of the Government to operate the electric railway line with non-union labor. Thousands of strikers surrounded the railway line, building a barricade to stop the line, with threatening to blow them up with dynamite. Street cars were overturned and windows in many houses broken.

After the rioters were dispersed the steam railroad employees tried to go out to sympathy with the tramway strikers. At the same time there was a meeting of the General Trade Union Federation, with six-four week day men's associations represented, at which a resolution calling for a national strike was adopted.

IN AND ABOUT THE CITY

WILFRED YOUNG, who was sentenced to serve two years in the penitentiary for theft, was yesterday taken from the County Jail here to Kingston to serve his term.

COST HIM \$25.
Philip Murdock, who was accused of the theft of some eggs and sold from Mr. Blake Ketchum's place in St. Mary, was today brought up before Magistrate Mason. Although the offence had been taken, the accused through his solicitor, Mr. Carson, admitted that he took some eggs from Mr. Ketchum's place, but denied taking the eggs. The eggs, which Murdock was allowed to go, but had to pay all costs in the proceedings, were amounted to \$25. Mr. Carson represented the Crown.

WILL BE A BIG DAY TOMORROW

Belleville will be increased in population tonight by 1,280 people, 620 horses, four elephants and 1,000 wild animals. Five trains of wonder will be unloaded into the city during the early hours of the morning. It will be a circus day. The first section of Blazing Brothers' mile-long special train will arrive shortly after midnight. It will bring the show's ornate department, and the army of cooks, waiters and waitresses that will be in full force before breakfast. The second section carrying the parade equipment will arrive in the city by 10 o'clock, and the third section, with the "Joan of Arc" spectacle, will follow close upon it. The vast amount of ring property, animals and staff wagons will arrive on the fourth train. On the last section will be the elephants, the ring and the performance of the circus. By the time it arrives back at the city.

By this o'clock the great show will be under canvas and everything will be in readiness for the parade. The show is so well planned that the elephants are unloaded to leave the grounds at 8 o'clock. It will now be a matter of time. It will be three miles long and one chain of novelties. It is the largest parade in the world. The show have arrived.

SPORTS

THE GREATEST PLAY EVER MADE

I have been out of baseball for years but there is one play which I have never seen and which is as fresh to my mind as the day after it happened. I have found out that many players but in this one there was no such at stake and it was so carefully played that I always remember it as the greatest of all.

The play was made at Louisville in 1912 in the days of the twelve team league. Baltimore had batted first and the Cleveland and Cincinnati clubs were fighting but the Cleveland club to decide which should play Baltimore for the Tampa cup.

Hundreds of dollars for the Tampa cup was at stake and the players were doing their utmost to win. Buck Bwaga,

There was intense rivalry between the teams and the crowd was wild. The Reds came up in the ninth inning to do or die. They got runners on third and second with only one out. The crowd was jumping and cheering, making the score 3 to 3.

The crowd was jumping and cheering, making the score 3 to 3.

There was intense rivalry between the teams and the crowd was wild. The Reds came up in the ninth inning to do or die. They got runners on third and second with only one out. Billy Jacobs was at bat and with two strikes and one ball, called for his ball on the nose, and I whiffed and saw it going like a shot about four feet from the plate. The crowd was jumping and cheering, making the score 3 to 3.

Niagara-on-the-Lake, June 15.—That the Fifth and Sixth Territorial regiments in Toronto to fill the ranks during the Niagara campaign, was the object of the board of inquiry, which sat for two days, investigating stories in circulation in Toronto that the two regiments were recruited in Toronto for the war, although the two regiments admitted to the board that they had not joined from Toronto, who were out of work, and had given them uniforms for camp.

The board decided that while men were recruited in Toronto, they were not recruited, unemployed, and made good soldiers.

One of the military regulations is that no recruitment should be made in Toronto.

IT STANDS TO REASON Why So Many Women Have Poor Health

Any girl who is poor health comes down in health from nervous, worry or other causes, cannot regain her health until she receives the medicine known as **Dr. Williams' Pink Pills**, which only comes recommended by qualified men. If a constitution simply cannot stand this strain, cause of weakness, it becomes necessary to take medicine, but the medicine known as **Dr. Williams' Pink Pills** is the only one that is so highly recommended by qualified men. It is not natural that a woman should be so weak. It is not natural that a woman should be so weak. It is not natural that a woman should be so weak.

This Age, Heredity and Poor Health
A special remedy is required which will build and strengthen the system, restore each organ to its proper function so that the system may be able to resist the attacks of disease. Restoratives "do not" do this. They only remove the conditions for the attack of disease. They positively cure and build up the system. They have tried—will give one box of the medicine. Tablets a trial and the remedy will be in perfect health.

THE GREATEST PLAY EVER SAW

As Told To
HUGH SULLIVANTON

BY MIKE MITCHELL.

Pranier Outfielder and Base Runner of the Cincinnati Reds, and Who is One of the Greatest Bats in the Business.

I believe Duke Packer made the greatest play I ever saw in my life. It was a play that improved me wonderfully. The play was being played in the home of baseball and of baseball players. It was made in a game in Cincinnati late in the fall of 1911 against the Chicago Cubs and came near robbing Chicago's team of the pennant.

Perhaps the reason it was so much improved by the play was that only a few days before we had been playing in the New York Giants. The Giants were fighting and selling every crowd in the city to beat Chicago out of the pennant. They came to us.

Mike Mitchell.

Now, and the way they went after Packer suggested him. They said things to him that hurt, and he was bitter. He had it in for the whole New York crowd, especially McGraw, and wanted revenge. He wanted to get McGraw or Pittsburgh to beat the Giants out. He decided that if he came down to him

to win a game for Cincinnati against the Cubs he would have to know the play that which he doesn't know. There never was a chance that Packer would lose a game purposely, but he and several others of us were sure enough to want to do it just at that time.

I think it was the eighth inning of that game. Packer was getting as bad as he could for Chicago to beat us. They had us beat, as a matter of fact, but in that eighth inning they had two men on base and two out when Huddas hit the ball a mile to center field. It looked a home run, but, perhaps a home run. Packer didn't seem to have a chance to catch it. You know on the Cincinnati park there is a hill under the fence all around left and center field, perhaps ten feet above the level of the playing ground. The ball looked as if it would hit the fence four or five feet above the hill. Packer was racing along at top speed, and cutting as he ran. He went up the hill like an athlete, jumped, stuck up one hand, grabbed the ball, hopped into the fence, turned over and rolled down the hill holding up the ball with one hand.

As I thought he was hurt, but when we reached him he was sitting up, looking like a pirate because he had caught the ball. I thought that was it to catch it, and I thought I'd give it to one of the Chicago boys. "You fellows understand a confound of it on post."

And after we had beaten them out by one run in the ninth inning, some of the Chicago boys or some of the Cubs shook hands with Packer and told him he was game and honest. Catching that ball did more to make them like him than anything he could have done.

To-day's Impressions To-morrow's Sales

Many a September purchase is really decided in July.

Many a woman is gathering information to-day that will influence her selection of a stove two months hence.

Many a man is thinking right now about the store he will patronize for his Fall suit and overcoat.

Many an October plan purchase is really determined on the porch of a summer hotel or home in August.

How unusual, then, to put off the Advertising of these and similar articles until the actual time of their use arrives.

One advertisement seldom makes a sale. It is the repeated impressions created by Advertising that develops purchases by a discriminating public—and these impressions are seldom built up in a day, a week or a month.

Yet some manufacturers and merchants still procrastinate until the first nip of frost is felt—and then beseech the public with belated announcements of Fall clothes, kitchen ranges, home furnishings, winter underwear, and other articles usually purchased in the Fall.

Purchased in this Fall—oh, yes—but decided upon in September. Decided in favor of the goods that are continuously advertised.

It's the Advertising, read in July that bears fruit in September and October. For to-day's impressions inevitably lead to to-morrow's sales.

Advertises your advertising agency is available through a recognized Canadian advertising agency, or Secretary of the Canadian Trade Association, 200 Bedford Street, Toronto. Enquiries are made on application to your local agent with full information.

THE GREATEST PLAY EVER SAWN

AS TOLD TO US BY HUGH S. FULLERTON BY "DEACON" PHILLIPS.

Veteran Pitcher Pittsburgh National League Team, and Winner of the World Series, is Considered the Greatest of the "Old School" Pitchers.

Looking list and went into the bench the last of the game. The Cubs got a man on second base with two out. In fact that day the crowd was so big, packed up on or outside deep around the lot, and the crowd in fact, was particularly dense. There was a few sitting on the ground, and some of them tried to get up to the bleachers. A hit into the crowd was thrown two bases and a hit there at that time meant the game for Chicago.

I believe it was Hainey who hit the ball, and he certainly hit it right. THE PANAMA CANAL WILL DO FOR CANADA What the Erie and Great Lakes Did for the West

Compiled by John Coggswell

The Arrows Show the Present Route of Western Canadian Grain

The Arrows Show the Routes of Western Canadian Grain after the Opening of the Panama Canal.

Had the Panama Canal been in operation during the marketing season for Alberta's 1911 wheat crop, this grain would have been worth an additional three million dollars. Had it been able to ship this grain in bulk through the canal to Liverpool, the Alberta farmer would have received an additional 85 cents for every bushel of grain he produced.

Alberta's wheat crop for 1911 amounted to something over 100,000,000 bushels, or 25,000,000 tons. It has been reckoned from opinion expressed by authorities, reduce the average freight from Alberta points to Liverpool about 85 cents per bushel. A simple mathematical process shows that the canal would have meant \$1,875,000 added to the returns for Alberta's wheat crop of last year.

The following table shows the freight rates, summer and winter, per bushel on wheat from each of the three Prairie Provinces and Liverpool, via Fort William and Atlantic ports. For each province the average rate is given. Points in parenthesis are those of the coast, except a lower rate than that on the Western coast, every last and only waded a few inches of paper, as it was lost through without any further sailing. He said that, judging from the direction in which the wind was blowing, they should reach Coney Island about 2 o'clock on Sunday afternoon.

MOVING THE FART WEST CLOSER TO LIVERPOOL. Under the existing law a Canadian farmer who has to ship his wheat, usually consigned, on account of the heavier freight rate to Liverpool, which market was the principal Canadian grain. A "LIVELY" CORPSE.

The people assume that the Post-Republican party is dead. It is an exceedingly lively corpse.

So says the Toronto Globe in its editorial column on the 22nd of June, 1912.

Of course "the Liberal party in Canada is an exceedingly lively corpse." Is evidence of that fact wanted? If so, The Globe might refer to the results of the elections held in the different Provinces of the Dominion during the past few months.

Commencing with the extreme western portion of Canada, we find that in the last election in British Columbia, not a single Liberal was elected, although with one or two exceptions, every constituency was fiercely contested by one of the Globe's "Liberal" corpses? No, not a single one was left to tell of the disaster.

Manitoba followed and reaffirmed its confidence in the Conservative Government, led so ably by a Bay of Quinte boy, the Hon. Sir R. B. Ingham, by a large majority, leaving The Globe's lively Liberal corpses to mourn and reflect upon the want of confidence honest electors had in them. Years of experience taught them that there were none of the Grit politicians to be trusted. No, not one.

Nest, The Globe might refresh its memory by casting a longing look over the poll books of the two last elections in the own Province, Ontario, where it wielded its mighty influence with vigor and earnestness, but not with success.

MAY EXONERATE BOY

"Big Frank" Said to Have Killed Both Poles.

New London on Double Murder in Toronto Indicated. That Both Men Were Killed With a Knife—Young Menell Carried Off One Shot With a Pistol Which Did Not Take Effect.

—Mayor Still at Large.

Toronto, June 25.—The death of Mike Grynolko, the Pole, who was murdered at the Hungry Bay Police station on Sunday, did not result from his being shot down by Joe Napoli, revolver. Therefore, as both the dead men were stabbed, Big Frank must have inflicted the injuries to both.

If the post mortem report that death was caused by three knife wounds, then an attempt will be made to fasten the double murder on the felonies.

Joe Napoli, the man now held in custody, says that the Police find of him with a small pistol, that he did not turn over to the police.

It has been suggested that the gun turned over to the police was the one the Police owned, and that they charged the shot and were killed by it.

With a posse of detectives and county constables, a search was made in the vicinity of Hungry Bay for him, and a revolver was found.

The revolver, which he is said to have used in the killing of the two Poles, was found in the walls of the double murder.

It is said that the two Poles were killed by the knife wounds, and that the double murder was caused by the knife wounds.
